

## Next Generation Peace: Visions for Crisis Prevention of Tomorrow

### 25 Years zivik Funding Programme at ifa

 12 November 2026

 11:00–20:00 CET

 Allianz-Forum

 Pariser Platz 6, 10117 Berlin

**How can civil conflict transformation achieve sustainable and meaningful impact through locally led approaches in a global context shaped by geopolitical shifts and crises?**

Join us for a day of reflection on 25 years of partnership, learning and locally led peace work supported through the *zivik Funding Programme at ifa*. Over the last 25 years, it has contributed to anchoring civil conflict transformation as an essential pillar of German foreign policy by supporting civil society actors and partner organisations in fragile and conflict-affected contexts.

Through panels, conversations, interactive formats and artistic interventions, the event will create space for reflection and dialogue on how civil crisis prevention and conflict transformation can remain relevant and effective in a changing international environment.

The event will be held *entirely in English* without translation.

A formal invitation including the full programme details will follow.

We look forward to welcoming you in Berlin.

**The team of the zivik Funding Programme at ifa**
